

OmkarBajaga  
Jr. Software Engineer  
Total Exp – 1 month

Junior Software Engineer at Cognizant with expertise in .NET full-stack development using C#, ASP.NET, SQL Server and Angular. Skilled in software development like cycle, object-oriented programming and building scalable applications. Completed internships in AI, machine learning and data science with hand-on work in Python, Power BI and TensorFlow. Open to all technologies and eager to learn new skills with a strong focus on problem-solving, teamwork and continuous improvement. My goal is to grow as a versatile engineer who delivers impactful solutions while constantly improving my technical expertise.

Work Experience

Other Experience

Employee Leave and Attendance Management System      Full Stack Developer – 3 Months (Mar-2025 – Jun 2025)

Project Description

The Employee Leave and Attendance Management System is a web-based application developed using C#, ASP.NET, SQL Server and Angular. The system streamlines the process of managing employee attendance and leave requests by providing role-based access for employees, managers and admin. It enables employees to submit leave requests, managers to review and approve them and admin to maintain accurate attendance records. The solution ensures secure data handling, efficient record management and a user-friendly interface, helping organizations improve accuracy, reduce manual effort and simplify overall attendance tracking.

Roles & Responsibilities

Developed the front end using Angular and back end using C# and ASP.NET. Designed and managed the database in SQL Server for attendance and leave records. Implemented role-based access control for employees, managers and admin to ensure secure usage. Debugging and resolving technical issues in existing applications. Collaborating with team members in agile environments to deliver high-quality features. Supporting documentations, version control (GitHub) and knowledge sharing within the team. Focused on building a scalable, user-friendly and maintainable application.

Career Highlights

Recognized as the Best Student of the Year (2019) at school for academic excellence and overall contribution. Selected as College Ambassador for the Electoral Literacy club under Election Commission of India, promoting voter awareness and civic responsibility. Served as Department Representative, representing students and coordinating academic and cultural activities within the department. Worked as Administrator in NSS Committee, contributing to social initiatives, community service and event management.
